TOWN LOTS ARE NOW SELLING AT 225, 450 and \$100 in the new and beautiful town, FASADENA, situated right on the line of the Baltimore and Antapois Short Line railroad, in the prettiest, healthiest and nost productive part of Maryland, within about fifteen minutes of Baltimore from Camden Station. minutes of Baltimore from Camden Station.
THIS IS THE BEST AND CHEAPEST opportunity for profitable investment ever offered in the State THIS IS THE BEST AND CHEAPEST opportunity for profitable investment ever offered in the State of Maryland.

PASADENA is only a few minutes' walk from the EXCURSION GROUNDS, about ten minutes' ride from Bathing grounds and IRON SPRINGS, while the SULPHUR DEPOSITS and GLASS SAND BANKS can be reached in the same time.

GROVELAND HEIGHTS on Lookout Mountain are within fifteen minutes' ride of Pasadena.

PASADENA itself is directly on the line of the Annapolis Short Line raffroad, thus being accessible, through Round Bay, both by land and water (the latter being deep enough in either the Severn or the Magothy river to float the largest sea-going vessels.)

THE TOWN SITE is a fine one in every particular. The land is high and healthful, the scenery ufsurpassed for grandeur, variety, beauty and extensiveness of view, while the WATER FRONT of Round Bayten minutes' ride from Pasadens, is, without exception, superior to that of any other in the state of Maryland. Cool breezes constantly prevail. There is an abundance of water and of the purest quality. The ground is covered with shade trees of every variety.

A LARGE RAILROAD DEPOT, treight houses, &c., will soon be in course of construction. The banks alongside of the road are to be graded, leveled and otherwise improved and ornamented with sodded grass and shade trees, so as to improve vastly the general approach to PASADENA.

THE SOUTHERN LAND COMPANY have just completed their survey. The town is now Taid out. A larke number of houses just completed. In a short time sik farms, with their factories, orchards and truck gardens, will spring up on every side. Hundreds of these farms are already sold. The whole country is being rapidly taken up by actual aettlers.

MANUFACTURING INTERESTS AND INDUSTRIES are now being largely represented by prospecive plans for factories, mills, shops and other country is being rapidly taken up by actual aettlers.

THE SOUTHERNES, and have proposed a large tract of land at Round Bay and will beein operations immediately, thus criving agoubo

ning establishments and many others.

IN ADDITION TO THIS the ARROW STEAMSHIP COMPANY has already purchased a large tract of land at Round Bay and will begin operations immediately, thus giving employment to thousands.

THE TOWN MUST GROW. The thousands coming into Pasadena will need groceries, elething, boots and snoes, turniture and all the other necessaries and comforts of lite. Pasadena must supply them. It has no rival. Its natural advantages fit it for a large commercial and manufacturing town, while its attractions as a summer resort are far superior to any other resort in the country—north or south.

THE RAILROADS running through, around and about Pasadena are many. Aside iron the Baltimore and Annapolis Short Line there is the Drum Point Road, Elk Ridge Road, the new line just completed to Ocean City, to be connected with Baltimore and Potomac by road passing directly through Pasadena. This will make Pasadena about equal distance from Washington, Baltimore and Annapolis, yet bringing Pasadena nearer to the outside world than any of these places. Its geographical jestiton makes it impossible for any one road or combination of roads to torm a monopoly of rates—the river always being an outlet for reight and passenger traffic.

THE TOWN LOTS now on sale are 25x100 feet. Avenues 60 feet wide intersect each other, while larrier lots, in sizes to suit purchasers, are offered at low prices. Now is the time to buy. In a tew menuts their value will largely increase. Even now they are enlancing in value every day. Next year these lots will be worth ten times the prace now asked for them.

RAILROAD INDUCEMENTS to investors in Pasadena are the most liberal ever offered, not only as regards passenger rates, but also in freight discriminations. All residents are allowed FREE transportation. All freight carried at half rates.

THE SOUTHERN LAND COMPANY was organized and incorporated April, 1888, and has acquired very valuable real estate in and around Baltimore, together

valuable real estate in and around Baltimore, together with important franciuses necessary to the development of this property. The property owned and controlled by this company is worth at least \$500,000, and includes Pasadena, Round Bay City, Groveland Heights, Odenton, Oakland and Villa Rüge.

THE MOUNTAIN HOTEL COMPANY will soon erect on the very crest of Lookout mountain a hotel at a cost of \$250,000. The view from this spot is magnificent beyond description. From this point the whole land, with its rivers and crests, bays and creeks, towns and cittes, spreads out a magnificent panorama.

towns and cities, spreads out a magnificent panorams of wondrous beauty and great expanse.

CABLE CARS will soon run from Pasadena the entire length of Groveland Ridge up to Lookout Mountain, connecting at that place with cars for railroad station and boat landing at Round Bay, at which place the Round Bay Company has already made claborate improvements. Natural shady groves have been transformed into magnificent excursion grounds, with unequalled facilities for boating, bathing, fishing and hunting. Pavilions and music stands have been erected; restaurants opened, while roller coasters, swimps, boating and bathing houses, and all other equipments necessary to a first-class resort are here to be found at every turn. Mineral springs, free to all, gush up from all parts of the place. Walks and drives may be taken in all directions and for any distance without being broiled in the sun.

A COMPANY IS NOW FORMING for the purpose of developing the natural mineral springs at Round Bay. These springs are celetrated far and near for

Richard III.

Here are a few of the reasons—plainly told—why the Equitable is the best company in which to have your lite insured:

It is the most progressive.

It is the most progressive.

It is the most progressive.

It is the most trustworthy.

It never contests its policies.

It lives up to every promise.

It s new business is the largest.

It has the confidence of the people.

Last, but not least, it issues a non-for-feitable, incontestible endowment bond, without restrictions as to travel, residence or occupation, which is a better investment than a government bond.

The attention of capitalists is especially called to this new policy. Let us explain it in person.

THE IRISH CONFERENCE.

London, Dec. 2.—As the inevitable hour draws near in which a conclusion must be reached by the anxiously deliberating Irish nationalist parliamentarians as to the future leadership of their party the attention of Gladstonian liberals, liberal unionist and tory members of the house of commons steadily concentrates their upon the room wherein the Irish patriots, confronted by as great a danger as ever threatened their country, are groping about for some path which may lead them out of the labyrinthian difficulties of the present crisis back to the highway of success so lately and hopefully traversed by them. Before the hour appointed for the convering of today's session of the conference had arrived members of the house. Harrington is said to have declared that be would not accompany the envoys any farther, although he is undecided whether to return to London at once or remain for a while in this country. All will depend on the instructions which he receives after the London conference has concluded its labors. If Parnell instructs him to go ahead he will make a tour of the country on his own account as Parnell's repre-sentative. Dillon insists that the present crisic and especially the manifesto of himself and colleagues has seriously complicated the situation and holds himself in readiness to return home at once if McCarthy considers his presence and that of himself in the considers has presence and that of his associates necessary,

THE MEETING CALLED TO ORDER.

Shortly before the hour of meeting arrived the near approaches to the room were cleared and those persons loitering in the vicinity were kept under a close but unobtrusive surveillance by those directly interested in the proceedings.

Just before the hour of 12 the Irish nationalists commenced rapidly passing through the various corridors and into the place of conference, and promptly on the hour of noon the doors were closed and the deliberations resumed. At the moment of the closing of the doors it was ordered that all representatives of the press be excluded from contiguous corridors.
